BØRDAK

DJ · TECHNO RITUAL & VISCERAL
TARRACO / BARCELONA

The point is not to know where the music is going, but to know when to let it take you there.

01 — IDENTITY

I'll take you down to hell — and we'll come back to the light.

BØRDAK approaches DJing as a process of discovery rather than a fixed formula. His sets move through hypnotic techno, dry percussion and shifting layers of tension, allowing the music to develop at its own pace.

Less concerned with following a sound than with finding where it can go, BØRDAK builds each session around rhythm, contrast and instinct — letting the direction emerge behind the decks.

The set is treated as a progression: darkness → tension → hypnosis → release. The aim is not a fixed formula, but a coherent journey shaped in the room.

DOMINA

Enters through the body: a dark, hypnotic session shaped by deep pressure, restrained percussion and a slow pull toward the floor. The tension stays controlled; the groove does the work.

The last game 1985

Colder and more cinematic: a ritual of repetition, tension and memory, moving between raw rhythm and suspended atmosphere. A session built to feel like a scene rather than a sequence.
